Midterm Feb 13

Elements of this course

- Many resources (e.g. handouts and assignments) are available through Gauchospace. The Gauchospace site is a critical resource, so check it often for updates.
- All assignments are posted, graded, and handed back online. Gauchospace assignment submission can be spotty if you use a wifi and/or timed internet connection. Save all your work on your own drive. Always double-check to ensure your text entry has been transmitted and that your documents are uploaded and not corrupted. Submissions that cannot be accessed by the instructor will be considered unsubmitted.
- Readings are chosen to supplement the lecture and to reinforce the points in class. Read the assigned material either prior to or during the appropriate unit.
- Assignments are a crucial element of this course and will facilitate understanding of the lecture material. If you have questions about an assignment, please ask in class or bring them to office hours.
- Late homework assignments will be assessed a 10% penalty assessed for each subsequent 24-hour period (including weekends), up to five days after the due date. Late assignments are not accepted once the assignment has been handed back.
- The midterm and final exams will include written short-answer and multiple choice components.
- The final exam is cumulative.

Policies:

- Our office hours are distributed at different times throughout the week so that each student should be able to make it to at least one office hour. You are always welcome to see any of us.
- All students must attend sections for which they are registered.
- Assignments must be typed. Use unicode fonts as needed.
- If you encounter a scheduling conflict with the examination dates, please notify me within the first two weeks of the quarter so that we may arrange an alternative date.
- Regrade requests must be done in writing. Regrades due to clerical (i.e. mathematical) errors will simply be recalculated. Other regrading requests will subject your assignment or exam to undergo complete regrading.
- If you miss class, please do not ask for powerpoint slides. Ask a friend to lend you notes.
- Disruptiveness in lectures and section will not be tolerated and will result in grade reductions. This includes using phones, laptops, or tablets for anything other than course material.
- All students are expected to understand and comply with university policies regarding plagiarism and originality of work. Plagiarized assignments (including copying of a friend’s homework) will receive a grade of 0 and may result in additional disciplinary action.
- Both examinations are closed book, closed notes, closed phones.
- All course materials (class lectures and discussions, handouts, examinations, web materials) and the intellectual content of the course itself are protected by United States Federal Copyright Law and the California Civil Code. UC Policy 102.23 expressly prohibits students (and all other persons) from recording lectures or discussions and from distributing or selling course materials without the prior written permission of the instructor (See http://policy.ucop.edu/doc/2710530/PACAOS-100). Students are permitted to make notes solely for their own private educational use. Exceptions to accommodate students with disabilities may be granted with appropriate documentation.

Getting Help

- University policy dictates that requests for accommodation be initiated by the student. If you need accommodations for exams or have other learning needs that your TA or instructor should be aware of, you may request accommodations by contacting the Disabled Students Program.
